Destroyed-Jayne Sterne 2008-09-04 When eight-year-old Jayne left bomb-torn Northern Ireland, her family stayed with relations and a distant relative began a campaign of abuse so horrifying that her world was shattered forever. When the family moved again, Jayne thought the nightmare was over. She was wrong. Her relative came too. And, as her parents had to work nights, Jayne's abuser became her carer. Raped repeatedly by him, beaten, abused and battered, Jayne's life was a living hell. One thing kept Jayne sane: the love and care of her older brother, Stuart. But he had demons of his own, and Jayne watched in helpless despair as the boy who had always protected her turned into an adult consumed by rage. Out of control and on the edge, Stuart went on to commit one of the most terrible crimes of recent years. DESTROYED is the heart-stopping tale of an innocence stolen and a family torn apart told by a woman who has finally managed to confront her harrowing past.
Orpheus-Nazli Eray 2006-09-01 Robert Finn's translation of Turkish author Nazli Eray's Orphée makes available to the English-language reader a rewriting of the myth from the perspective of Eurydice, the wife of Orpheus. Eray's surrealistic version takes place in a hot resort town in contemporary Turkey. The setting of an archaeological dig gives a connection to the past and literally to the underworld. Found in the dig is a statue of the Roman emperor Hadrian, who proceeds to offer an unusual perspective on modern life and values through mysterious letters carried by a messenger pigeon. Eray also comments on modernity, as the city of Ankara emerges as a character in the novel's fantasy. Set in junta-ruled Turkey of the 1980s, the novel takes its place as a crucial slice of Turkish literary history. Resonating with haunting references to the film Last Tango in Paris, the novel evolves as a mystery story with a humorous bent. Thus Eray illuminates her insatiable curiosity about other cultures, particularly those of the West. Finally, the style of the translation is simple and clear, with crisp dialogue. Sibel Erol, professor of Turkish literature at New York University, has written an introduction that places this fantastic plot in a literary context, as well as in understandable terms that relate to the reality of today's Turkey.

Homesmind-Pamela Sargent 2014-04-01 Anra is a solitary. She was born without the power to mindspeak, and unlike her fellows, she cannot communicate in unspoken thoughts. In the past, she would have been killed at birth, but the arrival of the Wanderer, the comet controlled by the cybernetic intelligence known as the Homesmind, has changed everything. The people of the comet, the skydwellers, now supply solitaries with implants that allow artificial mindspeaking. The solitaries are sequestered in a single village that is willing to care for such children. Anra and her new brethren were thought to be the possible bridge between the people of Earth and the skydwellers, but the gap may be too great, since the people of Earth consider solitaries an abomination and the skydwellers as soulless. The solitaries are, instead, outcasts in two worlds, part of each but fully accepted in neither. Another comet enters the system, refusing to communicate with Homesmind and speaking to the people of Earth with the voices of their own dead, seducing them into a submission of their individual wills and trying to lure them to oblivion. Anra and her fellow solitaries have the power to resist their call, but can they unite in time to save everyone else?

A new way of being can begin with something as simple as a change in focus. This can be difficult, as it can challenge a relationship to growor grow apart. Fear is what keeps people from pushing ahead, and the old safeguard of at least Im not alone seems like a safe haven. But if we loved ourselves enough, we would never allow ourselves to be miserable, hurt, or sad. Health Promotion-David Seedhouse 2004-06-25 Incisively written, this new edition of a popular guide first published in 1996 slices through the rhetoric of health promotion. Its penetrating analysis quickly reveals health promotion's conceptual roots, providing an enlightening map of their web of theory and practice. David Seedhouse proves that health promotion, a discipline intended to improve the health of a population, is prejudiced—every plan and every project stems first from human values—and argues that only by acknowledging this will a mature discipline emerge. To help speed progress the author proposes a positive, practical theory of health promotion destined to inspire anyone who wishes to create better health. This new edition includes three new chapters on conventional health promotion, radical and foundational health promotion and mental health promotion, providing examples of the use of foundational health promotion. This new edition also adds five new teaching exercises, incorporates and updates the guide for teachers and lecturers and includes a new topical case study. This book is laced with entertaining dialogues and readers are encouraged to explore ten carefully presented exercises. Educational, accessible and intelligent, Health Promotion: Philosophy, Prejudice and Practice, 2nd Edition is a seminal work which heralds the beginning of the end of health promotion's long adolescence. It is nothing less than essential reading for all practitioners and students of health promotion.

Till Kingdom Come-Andrej Nikolaidis 2015 A cynical local reporter must tackle his most important story: to find out the true identity of the grandmother who brought him up and the mother who supposedly died giving birth to him. Suddenly, the past he has called his own turns out to be a complete fabrication: from the stories of his parents to the photos in the family albums. So starts the most important investigation the reporter has ever undertaken, one in which the main suspect is the mother he never knew. Crazy though it may seem, it appears that the woman who gave birth to him was actually one of an elite band of trained killers employed by the Yugoslav Secret Services to liquidate political opponents abroad, and his entire childhood the carefully orchestrated plan of this same organization. Our hero's journey will take him to the site of wartime atrocities and on the trail of fake suicides across Europe. Through his own unique and now recognizable style, Nikolaidis takes us into a world of criminal intrigue and a dissection of our humble human existence. Powerful, rich in philosophy, the reader is as powerless as the hero to free themselves of this binding narrative and find their way through the existential dilemmas.
My Italian Sketchbook-Florine Asch 2003-03-10 In My Italian Sketchbook, 30-year-old artist Florine Asch follows the tradition of the 18th century Grand Tour, when writers, architects and members of European high-society embarked on long journeys around Italy, taking in key cultural sites, often sketching as they went. Her fresh approach leaves us full of respect for the classical wonders of Italy's art and architecture, but also opens our eyes to the equally delightful architecture of today's stores, the markets, and local life. The Paladin Chronicles-B. W. Philpot 2006-05 Ridiyaah -- Ridi, as she was called by the other Paladins -- sat on the park bench looking up at the mangled remains of her ship, which was docked underneath her home. She had been surveying it through the transparent shell of The Domain and the damage to it was severe. The secluded little bench she was sitting on was overlooked by her home and its winding stairway that spiraled up the side of The Domains inner skin. In happier days, it had always been one of her favorite spots. She didnt have many friends -- everyone was too intimidated by her father to get too close to her -- and she had spent many hours here alone staring out into the cosmos. To the right of her home she could see Lensils house and the thought of what had happened there caused her to lower her head in remorse and self-pity.Her father had been the one to assign housing units to the Paladins when they came of age and he had assigned her the house next to Lensils home. How could he have known that it would lead to an event that would ruin her reputation? It wasnt his fault, she told herself, he had only made the assignment because she and Lensil had become friends at an early age. The other children had very little to do with her when she was very young; no one wanted to risk upsetting her and incur Bomabechs wraith.
