The Theory and Practice of History-Leopold von

Ranke 2010-11-01 Leopold von Ranke, who was born in 1795, is considered to be one of the founders of the modern practice of writing history. This collection of his writings, edited and introduced by Georg G. Iggers, was first published in 1973 and remains the leading collection of Ranke's writings in the English language. Now updated with the needs of current students in mind, this edition includes previously untranslated materials by the young Ranke, focusing particularly on the relationship between history and religion together with his inaugural lecture of 1836 'On the Relation and Difference between History and Politics'. Including pieces on historical science, and on the relationship between history and philosophy, as well as country specific histories, this book is essential reading for all students of historiography.

Michel Foucault-Dianna Taylor 2014-12-05

Michel Foucault was one of the twentieth century's most influential and provocative thinkers. His work on freedom, subjectivity, and power is now central to thinking across an extraordinarily wide range of disciplines, including philosophy, history, education, psychology, politics, anthropology, sociology, and criminology. "Michel Foucault: Key Concepts" explores Foucault's central ideas, such as disciplinary power, biopower, bodies, spirituality, and practices of the self. Each essay focuses on a specific concept, analyzing its meaning and uses across Foucault's work, highlighting its connection to other concepts, and emphasizing its potential applications. Together, the chapters provide the main co-ordinates to map Foucault's work. But more than a guide to the work, "Michel Foucault: Key Concepts" introduces readers to Foucault's thinking, equipping them with a set of tools that can facilitate and enhance further study.

Benjamin Constant and the Post-revolutionary Mind-Biancamaria Fontana 1991 The Swiss writer and political theorist Benjamin Constant was a key figure in the early 19th century attempt to come to terms with the new political world created by the French Revolution of 1789. In this book, Biancamaria Fontana presents an overview of Constant's life and writings, showing the unity of his vision and exploring analogies between the issues he discussed and those that confront modern democratic states today.

Liberal Beginnings-Andreas Kalyvas 2008-06-30
The book examines the origins and development of the modern liberal tradition and explores the relationship between republicanism and liberalism between 1750 and 1830. The authors consider the diverse settings of Scotland, the American colonies, the new United States, and France and examine the writings of six leading thinkers of this period: Adam Smith, Adam Ferguson, James Madison, Thomas Paine, Germaine de Staël, and Benjamin Constant. The book traces the process by which these thinkers transformed and advanced the republican project, both from within and by introducing new elements from without. Without compromising civic principles or abandoning republican language, they came to see that unrevised, the republican tradition could not grapple

successfully with the political problems of their time. By investing new meanings, arguments, and justifications into existing republican ideas and political forms, these innovators fashioned a doctrine for a modern republic, the core of which was surprisingly liberal.

Pahlavi Texts-F. Max Mueller

Out of Revolution-Eugen Rosenstock-Huessy
2013-04-08 This classic, originally published in 1938, was reprinted in 1969 for a new generation by Berg Publishers. From the new introduction

by Harold J. Berman: That this book-- written six decades ago --is without question an extraordinary book, a remarkable book, a fascinating book, has not saved it from relative obscurity. It is directed against conventional historiography, and for the most part the conventional historians have either ignored it or denounced it . . . [It] is a history in the best sense of the word. Although it embodies original scholarship of the highest professional quality, it is written primarily for the amateur, the person of general education, who wants to know where we came from and whither we are headed. But it is also a theory of history: how history should be understood, how historians should write about it Out of Revolution interprets modern Western history as a single 900-year period, initiated by total revolution . . . and punctuated thereafter by a series of total revolutions that broke out successively in the different European nations Rosenstock-Huessy was a prophet who, like many great prophets, failed in his own time, but whose time may now be coming.

The Access of Individuals to International Justice-Antônio Augusto Cançado Trindade 2011-08-25 The Author examines the considerable advances undergone by the right of access to justice in the domain of the international protection of the rights of the human person in recent years. The right of access to justice is understood, lato sensu, as encompassing not only the formal access to a tribunal or judge, but also the guarantees of due process of law, the right to a

fair trial, and to reparations (whenever they are due), and the faithful execution of judgments. The evolving international case-law on the matter is examined in detail, including cases concerning victims in situations of the utmost adversity (e.g., abandoned or
