La renaissance du Temps-Lee Smolin 2019-09-04 La question du Temps est au coeur de toutes les problématiques scientifiques, de la cosmologie à la mécanique quantique. L'un des plus grands physiciens d'aujourd'hui, Lee Smolin, expose sa conception du Temps et ses implications sur la perception de notre environnement. Le Temps est-il une illusion qui cache une vérité éternelle, ou une réalité physique de notre Univers ? Lee Smolin opte pour la réalité du Temps, s'opposant en cela à la majorité des penseurs, physiciens ou philosophes, inspirés pour les uns par la théorie de la Relativité d'Einstein et pour les autres par les idées platoniciennes. « Il nous faut marquer une rupture nette, nous lancer dans une nouvelle sorte de théorie, applicable à la totalité de l'Univers - débarrassée de toute confusion, de tout paradoxe et qui éclaire les questions sans réponse. » Lee Smolin

Selected Letters of Vernon Lee, 1856 - 1935-Amanda Gagel 2016-10-26 Vernon Lee was the pen name of Violet Paget (1856-1935) - a prolific author best known for her supernatural fiction, her support of the Aesthetic Movement and her radical polemics. She was also an active letter writer whose correspondents include many well-known figures in fin de siècle intellectual circles across Europe. However, until now no attempt has been made to make these letters widely available in their complete form. This multi-volume scholarly edition presents a comprehensive selection of her English, French, Italian, and German correspondence - compiled from more than 30 archives worldwide - that reflect her wide variety of interests and occupations as a Woman of Letters and contributor to scholarship and political activism. Letters written in a language other than English have been expertly translated by scholars Sophie Geoffroy (from the French), Crystal Hall (from the Italian), and Christa Zorn (from the German). The edition focuses on those letters concerning the writing, ideas and aesthetics that influenced Lee's articles, books and stories. Full transcriptions of some 500 letters, covering the years 1856-1935, are arranged in chronological order along with a newly written introduction that explains their context and identifies the recipients, friends and colleagues mentioned. Since scholarship on Lee's critical and creative output is still in the beginning stages, these letters will serve a purpose to students and researchers in a number of academic fields. In this first volume, tracing the years 1856-1884, the assembled letters cover the beginnings of her career, encompassing her first publication, visits to London and encounters with some of the important artistic figures of the time. As her career begins to blossom, the letters also reflect the expansion of her subject matter from cultural studies and art history to novels and aesthetic philosophy. Correspondents include Lee's parents, Matilda and Henry Paget; her brother the poet Eugene Lee-Hamilton; English poet Mary Robinson; English authors Henrietta Jenkin and Linda Villari; and Italian writers Enrico Nencioni, Mario Pratesi, and Angelo De Gubernatis, among others. De la Renaissance à la guerre civile-Jean Jules Jusserand 1904 Translating Nature Into Art-Jeanne Nuechterlein 2011 "Explores how the Renaissance artist Hans Holbein the Younger came to develop his mature artistic styles through the key historical contexts framing his work: the controversies of the Reformation and Renaissance debates about rhetoric"-- Provided by publisher.

Lee Bul, on every new shadow-Bul Lee 2007 Lee Bul is one of the leading Korean artists of her generation. This book accompanies her ambitious new sculptural installation at the Fondation Cartier pour l'art contemporain in Paris. Various suspended in mid-air or anchored to the floor, the sculptures constitute a singular environment that engages with the surrounding Jean Nouvel architecture, inhabiting and elaborating on its physical and conceptual frameworks. Complex and sensuous, the artists installation manifests the disintegration of utopian aspirations that continue to haunt the collective imagination in a darkly seductive space of glittering ruins and vestiges.

When Dad Died-Renzo Derosas 2002 Bern, Berlin, Bruxelles, Frankfurt/M., New York, Oxford, Wien. This volume is an important contribution to the social and cultural history of the family and documents that widowhood and orphanhood were commonplace before the twentieth century. How did the survivors cope with such tragedy? What kind of support did they receive from their community and relatives? How many widows remarried? How many children grew up as step-children or wards? And how did these circumstances influence their futures? While individual stories are frequent themes in literature, the social history of these experiences has yet to be written, especially from a comparative perspective. The 16 essays in this book provide a fresh look at the family history of widowhood and orphanhood in a dozen European and Asian countries.

Les grandes figures du monde moderne-Josiane Boulad Ayoub 2001 Cet ouvrage raconte un grand récit : celui des faits, des institutions sociales et politiques, des grandes figures de la pensée, de l'art, des lettres, de la science et de la technique qui ont constitué le monde moderne. On y découvrira l'activité prodigieuse qui se déploie tout au long de ces quatre siècles parmi les plus denses, les plus décisifs de notre histoire commune. Davantage synthèse qu'analyse, il faut prendre ce livre comme un fil conducteur : de la Renaissance à la Révolution, il guidera " l'honnête homme " contemporain dans ce beau voyage intellectuel. L'itinéraire découpe en trois périodes historiques les très riches heures qui, des siècles de l'Aventure au siècle des Lumières, ont permis notre actualité contemporaine pendant que s'élaborent les œuvres de ce rationalisme conquérant auquel nous devons tant. Aux lignes de force qui l'articulent répond la dynamique de l'exposé : moments forts que marquent les principales thématiques lui donnant son unité, textes-clefs des auteurs ayant contribué à fonder la modernité et à la façonner, abondantes illustrations leur donnant vie. Un CD-Rom interactif avec les illustrations en couleurs, œuvre de François Blanchard, et une bibliographie d'hyperliens Internet établie par Luc Bonneville, viennent enrichir cet ouvrage à la fois classique et pionnier.
