Democratic Orators from JFK to Barack Obama-Andrew S. Crines 2016-03-10 How do leading Democratic Party figures strive to communicate with and influence their audience? Why have some proven more successful than others in advancing their ideological arguments? How do orators seek to connect with different audiences in different settings such as the Senate, conventions and through the media? This thoroughly researched and highly readable collection comprehensively evaluates these questions as well as providing an extensive interrogation of the political and intellectual significance of oratory and rhetoric in the Democratic Party. Using the Aristotelian modes of persuasion ethos, pathos and logos it draws out commonalities and differences in how the rhetoric of Democratic Party politics has shifted since the 1960s. More broadly it evaluates the impact of leading orators upon American politics and argues that effective oratory remains a vital party of American political discourse.

The Principles of Criminal Evidence-A. A. S. Zuckerman 1989 Like any procedure for determining the truth about events, the law of criminal evidence has to be evaluated by reference to its structure and its general principles. However, there are three distinct principles governing the practices of the jury system which require that this particular law be treated in a distinct way. This book examines the role played by the lay judgement of jurors, and discusses the judicial practices which have evolved to satisfy the following three principles: the desire to discover the truth; the need to protect the innocent from conviction; and the need to maintain adequate standards of propriety in the criminal process. The central feature of the law of criminal evidence is to be found in the courts' continual search for a balance between the competing demands of these three principles.

Conservative Orators from Baldwin to Cameron-Richard Hayton 2015 How do leading Conservative politicians strive to communicate with and influence the electorate? Why have some been more effective than others in advancing their personal positions and ideological agendas? How do they seek to connect with their audience in different settings, such as the party conference, House of Commons, and through the media? This book draws analytical inspiration from the Aristotelian modes of persuasion to shine new and insightful light upon the articulation of British conservatism, examining the oratory and rhetoric of twelve key figures from Conservative Party politics. Each chapter is written by an expert in the field and explores how its subject attempted to use oratory to advance their agenda within the party and beyond. The Rowan Rifle Guards-Phd Philip Hatfield 2019-07-22 The Rowan Rifle Guards formed in 1857 as a Volunteer rifle company in Salisbury, North Carolina, in an era when zealous young men viewed membership as more of a social stepping stone than military service. When the Civil War erupted in 1861 the naive volunteers hastily stepped forward to help garrison the North Carolina coast against an expected Federal invasion. Soon re-designated as Company K, 4th North Carolina State Troops, the Rowan Rifles served in every bloody engagement waged by the Army of Northern Virginia. As in all wars, the harsh realities of active campaigns quickly destroyed any misconceptions of finding glory in war, and the excited volunteers soon became battle hardened veterans. This work offers candid, personal accounts written by soldiers who participated in the epic struggle that tested not only their devotion to principle, but also to each other. In this way, the reader sees the war from a common soldier's perspective, rather than relying on secondary narratives focused on dry statistics and strategies alone to tell the story. Ultimately, a shattered Company K surrendered sixteen survivors at Appomattox on April 9, 1865, as a testament to the terrible price paid for their devotion.
