The Devil and the River-R.J. Ellory 2018-03-06 Internationally bestselling author R.J. Ellory returns with his latest thriller of murder, deceit, and intrigue—"an energetic and winning exercise in pulp fiction with a Southern Gothic flavor" (METRO).On a perfect summer evening in 1954, sixteen-year-old Nancy Denton walked into the woods of her hometown of Whytesburg, Mississippi. She was never seen again. Two decades later, Sheriff John Gaines witnesses a harrowing discovery: A young woman has been unearthed from the riverbank, her body perfectly preserved, yet she bears evidence of a brutal ritualistic killing. Nancy has come home at last, but her return does not bring closure to her family, or to the citizens of Whytesburg. What really happened to the beautiful and vivacious Nancy? And why do her friends refuse to talk? As Gaines closes in on the truth, he is forced to not only confront his own demons, but to unearth secrets that have long remained hidden. And that truth, so much darker than he could ever have imagined, may be the one thing that finally destroys him. The Devil and the River is the tense and shadowy story that will haunt you from its very first pages.

The Hand That Feeds You-A.J. Rich 2015-07-07 "Morgan Russell, 30, is completing her thesis on victim psychology at John Jay College of Criminal Justice and newly engaged to Bennett, a man more possessive than those she has dated in the past, but also more chivalrous--and the sex is hot. She returns from class one day to find Bennett brutally killed, and her dogs--a Great Pyrenees, and two pit bulls she was fostering--covered in blood. Bewildered and devastated that her dogs could have committed such violence, she worries that she might suffer from one of the syndromes she studies--pathological altruism: when selfless acts do more damage than good. When Morgan tries to locate Bennett's parents to tell them about their son's hideous death, she discovers that everything he has told her--where he was born, where he lives in Montreal, where he works--was a lie. He is not the man he said he was. In fact, he fits the clinical definition of a sociopath, and he had several fiance all believing the same promises he gave Morgan. And then, one by one, these other women are murdered. Morgan's research into Bennett has taken on an urgency: in order to stay alive, she must find out how an intelligent woman like herself, who studies predators, becomes a victim. Sexy, disturbing, and highly suspenseful, this is a brilliant collaboration between two outstanding writers"--

The Origin of Violence-Fabrice Humbert 2011-12-01 During a school trip to Buchenwald concentration camp, a young French teacher comes across a photograph of a man whose resemblance to his own father, Adrien, is uncanny. However, the man has a different name and died in 1942.

Returning to France, he finds that the memory of the photograph refuses to leave him. He decides to embark on a search for its subject, which takes him to the Buchenwald archives, to the heart of the Nazi machine, but more disturbingly, draws him into the dark heart of his own family. Eventually, he is brought face-to-face with his own capacity for violence. A subtle, moving book, The Origins of Violence shows the limitless ways in which humans inflict harm on each other, and how individual people, not societies, are the perpetrators.

A Sudden Light-Garth Stein 2014-09-30 From the author of the million-copy bestselling The Art of Racing in the Raincomes the breathtaking and long-

awaited new novel. This novel centres on four generations of a once terribly wealthy and influential timber family who have fallen from grace; a mysterious yet majestic mansion, crumbling slowly into the bluff overlooking Puget Sound in Seattle; a love affair so powerful it reaches across the planes of existence; and a young man who simply wants his parents to once again experience the moment they fell in love, hoping that if can feel that emotion again, maybe they won't get divorced after all.

The Whispering Room-Dean Koontz 2017-11-21 NEW YORK TIMES

BESTSELLER • Jane Hawk—fiction's most relentless, resourceful, stunning new heroine—continues her battle against a murderous conspiracy in the riveting sequel to The Silent Corner. "No time to delay. Do what you were born to do. Fame will be yours when you do this." These are the words that ring in the mind of mild-mannered, beloved schoolteacher Cora Gundersun—just before she takes her own life, and many others', in a shocking act of carnage. When the disturbing contents of her secret journal are discovered, it seems certain that she must have been insane. But Jane Hawk knows better. In the wake of her husband's inexplicable suicide—and the equally mysterious deaths of scores of other exemplary individuals—Jane picks up the trail of a secret cabal of powerful players who think themselves above the law and beyond punishment. But the ruthless people bent on hijacking America's future for their own monstrous ends never banked on a highly trained FBI agent willing to go rogue—and become the nation's most wanted fugitive—in order to derail their insidious plans to gain absolute power with a terrifying technological breakthrough. Driven by love for her lost husband and by fear for the five-year-old son she has sent into hiding, Jane Hawk has become an unstoppable predator. Those she is hunting will have nowhere to run when her shadow falls across them. Don't miss any of Dean Koontz's gripping Jane Hawk thrillers: THE SILENT CORNER • THE WHISPERING ROOM • THE CROOKED STAIRCASE • THE FORBIDDEN DOOR • THE NIGHT WINDOW (Coming Soon!) Praise for The Whispering Room "Koontz has never exactly shied away from complex characters or situations. And this situation gets very complex indeed, as Jane pursues the people behind the conspiracy with the kind of single-minded relentlessness that makes the book absolutely spellbinding. As good as The Silent Corner was, this one's even better. . . . Koontz is on another roll with a new series that boasts a juicy premise and a compelling star. . . . Pure gold."—Booklist (starred review) "A deeply layered, satisfying thriller that is character-driven and nearly impossible to put down . . . grounded in many real-world, current issues . . . [The Whispering Room] never loses sight of the classic political/sci-fi/thriller elements that make it so much fun to read."—Bookreporter

Golden Child-Claire Adam 2019-01-29 A deeply affecting debut novel set in Trinidad, following the lives of a family as they navigate impossible choices about scarcity, loyalty, and love WINNER OF THE DESMOND ELLIOTT PRIZE • "Golden Child is a stunning novel written with force and beauty. Though true to herself, Adam's work stands tall beside icons of her tradition like V.S. Naipaul."—Jennifer Clement, author of Gun Love Rural Trinidad: a brick house on stilts surrounded by bush; a family, quietly surviving, just trying to live a decent life. Clyde, the father, works long, exhausting shifts at the petroleum plant in southern Trinidad; Joy, his wife, looks after the home. Their two sons, thirteen years old, wake early every morning to travel to the capital, Port of Spain, for school. They are twins but nothing alike: Paul has always been considered odd, while Peter is widely believed to be a genius, destined for greatness. When Paul goes walking in the bush one afternoon and doesn't come home, Clyde is forced to go looking for him, this child who has caused him endless trouble already, and who he has never really understood. And as the hours turn to days, and Clyde begins to understand Paul's fate, his world shatters—leaving him faced with a decision no parent should ever have to make. Like the Trinidadian landscape itself, Golden Child is both beautiful and unsettling, a resoundingly human story of aspiration, betrayal, and love. Praise for Golden Child "In fluid and uncluttered prose, Golden Child weaves an enveloping portrait of an insular social order in which the claustrophobic support of family and neighbors coexists with an omnipresent threat from the same corners."—The New York Times Book Review "[A] powerful debut . . . a devastating family portrait—and a fascinating window into Trinidadian society."—People "[An] emotionally potent debut novel . . . with a spare, evocative style, Adam (a Trinidad native) evokes the island's complexity during the mid-'80s, when the novel is mostly set: the tenuous relationship

between Hindus like Clyde's family and the twins' Catholic schoolmaster, assassinations and abductions hyped by lurid media headlines, resources that attract carporting oil companies but leave the country largely impoverished."—USA Today

Heart Spring Mountain-Robin MacArthur 2018-01-09 In this evocative first novel, a young woman returns to her rural Vermont hometown in the wake of a devastating storm to search for her missing mother and unravel a powerful family secret. It's August 2011, and Tropical Storm Irene has just wreaked havoc on Vermont, flooding rivers and destroying homes. One thousand miles away—while tending bar in New Orleans—Vale receives a call and is told that her mother, Bonnie, has disappeared. Despite a years-long estrangement from Bonnie, Vale drops everything and returns home to look for her. Though the hometown Vale comes back to is not the one she left eight years earlier, she finds herself falling back into the lives of the family she thought she'd long since left behind. As Vale begins her search, the narrative opens up and pitches back and forth in time to follow three generations of women—a farming widow, a back-to-the-land dreamer, and an owl-loving hermit—as they seek love, bear children, and absorb losses. All the while, Vale's search has her unwittingly careening toward a family origin secret more stunning than she ever imagined. Written with a striking sense of place, Heart Spring Mountain is an arresting novel about returning home, finding hope in the dark, and of the power of the land—and the stories it harbors—to connect and to heal. It's also an absorbing exploration of the small fractures that can make families break—and the lasting ties that bind them together.

Blackfish City-Sam J. Miller 2018-04-17 "One of the most intriguing future cities in years." —Charlie Jane Anders "Simmers with menace and heartache, suspense and wonder." —Ann Leckie A Best Book of the Month in Entertainment Weekly The Washington Post Tor.com B&N Sci-Fi Fantasy Blog Amazon After the climate wars, a floating city is constructed in the Arctic Circle, a remarkable feat of mechanical and social engineering, complete with geothermal heating and sustainable energy. The city's denizens have become accustomed to a roughshod new way of living, however, the city is starting to fray along the edges—crime and corruption have set in, the contradictions of incredible wealth alongside direst poverty are spawning unrest, and a new disease called "the breaks" is ravaging the population. When a strange new visitor arrives—a woman riding an orca, with a polar bear at her side—the city is entranced. The "orcamancer," as she's known, very subtly brings together four people—each living on the

periphery—to stage unprecedented acts of resistance. By banding together to save their city before it crumbles under the weight of its own decay, they will learn shocking truths about themselves. Blackfish City is a remarkably urgent—and ultimately very hopeful—novel about political corruption, organized crime, technology run amok, the consequences of climate change, gender identity, and the unifying power of human connection.

Set against the assassination of JFK, a poignant and evocative crime novel that centers on a desperate cat-and-mouse chase across 1960s America—a story of unexpected connections, daring possibilities, and the hope of second chances from the Edgar Award-winning author of The Long and Faraway Gone. Frank Guidry's luck has finally run out. A loyal street lieutenant to New Orleans' mob boss Carlos Marcello, Guidry has learned that everybody is expendable. But now it's his turn—he knows too much about the crime of the century: the assassination of President John F. Kennedy. Within hours of JFK's murder, everyone with ties to Marcello is turning up dead, and Guidry suspects he's next: he was in Dallas on an errand for the boss less than two weeks before the president was shot. With few good options, Guidry hits the road to Las Vegas, to see an old associate—a dangerous man who hates Marcello enough to help Guidry vanish. Guidry knows that the first rule of running is "don't stop," but when he sees a beautiful housewife on the side of the road with a broken-down car, two little daughters and a dog in the back seat, he sees the perfect disguise to cover his tracks from the hit men on his tail. Posing as an insurance man, Guidry offers to help Charlotte reach her destination, California. If she accompanies him to Vegas, he can help her get a new car. For her, it's more than a car— it's an escape. She's on the run too, from a stifling existence in small-town Oklahoma and a kindly husband who's a hopeless drunk. It's an American story: two strangers meet to share the open road west, a dream, a hope—and find each other on the way. Charlotte sees that he's strong and kind; Guidry discovers that she's smart and funny. He learns that's she determined to give herself and her kids a new life; she can't know that he's desperate to leave his old one behind. Another rule—fugitives shouldn't fall in love, especially with each other. A road isn't just a road, it's a trail, and Guidry's ruthless and relentless hunters are closing in on him. But now Guidry doesn't want to just survive, he wants to really live, maybe for the first time. Everyone's expendable, or they should be, but now Guidry just can't throw away the woman he's come to love. And it might get them both killed.

The Art of Joy-Goliarda Sapienza 2013-07-30 The tumultuous twentieth century, told through the life of a single extraordinary woman Rejected by a series of publishers, abandoned in a chest for twenty years, Goliarda Sapienza's masterpiece, *The Art of Joy*, survived a turbulent path to publication. It wasn't until 2005, when it was released in France, that this novel received the recognition it deserves. At last, Sapienza's remarkable book is available in English, in a brilliant translation by Anne Milano Appel and with an illuminating introduction by Angelo Pellegrino. *The Art of Joy* centers on Modesta, a Sicilian woman born on January 1, 1900, whose strength and character are an affront to conventional morality. Impoverished as a child, Modesta believes she is destined for a better life. She is able, through grace and intelligence, to secure marriage to an aristocrat—without compromising her own deeply felt values. Friend, mother, lover—Modesta revels in upsetting the rules of her fascist, patriarchal society. This is the history of the twentieth century, transfigured by the perspective of one extraordinary woman. Sapienza, an intriguing figure in her own right—her father homeschooled her so she wouldn't be exposed to fascist influences—was a respected actress and writer who drew on her own struggles to craft this powerful epic. A fictionalized memoir, a book of romance and adventure, a feminist text, a bildungsroman—this novel is ultimately undefinable but deeply necessary; its genius will leave readers breathless.

Humiliation in International Relations-Bertrand Badie 2017-07-27 In international relations (IR), some states often deny the legal status of others, stigmatising their practices or even their culture. Such acts of deliberate humiliation at the diplomatic level are common occurrences in modern diplomacy. In the period following the breakup of the famous 'Concert of Europe', many kinds of club-based diplomacy have been tried, all falling short of anything like inclusive multilateralism. Examples of this effort include the G7, G8, G20 and even the P5. Such 'contact groups' are put forward as if they were actual ruling institutions, endowed with the power to exclude and marginalise. Today, the effect of such acts of humiliation is to reveal the international system's limits and its lack of diplomatic effectiveness. The use of humiliation as a regular diplomatic action steadily erodes the power of the international system. These actions appear to be the result of a botched mixture of a colonial past, a failed decolonisation, a mistaken vision of globalisation and a very dangerous post-bipolar reconstruction. Although this book primarily takes a social psychology approach to IR, it also mobilizes the resources of the French sociological tradition, mainly inspired by Emile Durkheim. It is translated from *Le temps des humiliés. Pathologie des relations internationales* (Paris, Odile Jacob, 2014).

Women of Color in a World Apart-Anne K. Vittoria 2020-10-29 Care, whether viewed as acts of civility, acts of compassion and skill, or acts of close personal interaction, is the fundamental process by which society perpetuates and recreates itself. Despite social need and the undeniable benefit of occupations such as Certified Nursing Assistants (CNAs), these workers—mostly female and disproportionately from minority groups—face very low wages, a notable lack of respect, and little public recognition of their abilities. The United States is experiencing what experts call a crisis of care with a current and growing shortage of nurses and CNAs. In U.S. Nursing Centers, the demand for Certified Nursing Assistants, the largest group of employees who operate on the front line of health care, is expected to grow exponentially due to dramatic increases in population aging. Over the course of a year and a half, Anne K. Vittoria examined the meaning and social construction of care work on an Alzheimer's Pavilion located in a geriatric facility in the mid-western United States. Through in-depth ethnographic research focused on the local culture and logic of care, Vittoria documents that, when given autonomy in their daily work in an institution, CNAs and the LPN Charge Nurse constructed a systematic body of knowledge and created a language of care—forging a "different" model of personal care in resistance to the medical model of care. This book challenges the assumptions of the outside world that low-level workers are alienated from their work and have minimal skills. Paradoxically, the Pavilion is both a refuge and a site of struggle for the CNAs; they desire to

create a world that is the antithesis of the world in which they live on the outside. *Women of Color in a World Apart* provides a public forum for the voices of women of color, the development of concepts, and a practical as well as theoretical language of care that could be transformational in connecting the meanings of care with the organization of care.

Blue Economy of the Indian Ocean-Ranadhir Mukhopadhyay 2020-11-04 The economic paradigms currently dominating the world are not sustainable. The threats from climate change, exploitation-based approaches to commerce, and the excess acquisition of resources loom large as well as the possibility of military flare-ups. Maintaining a balance between development and ecosystems, aspirations for growth, and the need for sustainability is a prescient challenge. The Indian Ocean Region (IOR) encompasses some of the poorest countries in the world and those that will bear the brunt of the negative impacts from climate change. This book explores the immense potential of the IOR and how best to maintain sustainable and responsible economic and strategic activities. The combination of science, innovation, and entrepreneurship will create a new blue economy business model, which has the potential to transform society. Based on critical analysis of the model and its practical applications, including risks as well as opportunities, the topics discussed range from food security, energy, and resilience to climate change, trade and investments, and improved maritime connectivity to tourism, poverty alleviation, and socioeconomic growth, encompassing a wide range of interests and expertise. FEATURES Examines the geo-politics, geo-resources, and geo-hazards of the IOR and identifies opportunities and methods to achieve success Covers a detailed assessment of available resources (fisheries, minerals, energy), threats such as pollution (plastic, acoustic, carbon, bio-invasion), geo-politics (maritime security, military invasion), and strategic vision (determining carrying capacity, ethical governance, and responsible ecosystem) of the Indian Ocean Analyzes the economics of the blue economy, the global scenario including the Pacific and Caribbean islands, and the aspect of the Chinese geo-political invasion in the Indian Ocean Inspires entrepreneurs to adopt new ways of creating economic benefits, reducing energy use, and increasing revenue while simultaneously helping the communities involved Discusses the threat and security perspectives of the IOR and the collective responsibility for a sustainable use of resources Crossing a wide range of interests and expertise, this book explores topics and ideas that will be essential to researchers and professionals in marine sciences, economics, business, geography, and political sciences. Graduate students in the same fields as well as any and all organizations that maintain a presence in the IOR will likewise find this book to be a valuable resource.

Science and Creation-John C. Polkinghorne 2009-04-01 John C. Polkinghorne, internationally renowned priest-scientist, addresses fundamental questions about how scientific and theological worldviews relate to each other in this, the second volume (originally published in 1988) of his trilogy, which also included *Science and Providence* and *One World*. Dr. Polkinghorne illustrates how a scientifically minded person approaches the task of theological inquiry, postulating that there exists a close analogy between theory and experiment in science and belief and understanding in theology. He offers a fresh perspective on such questions as: Are we witnessing today a revival a natural theology—the search for God through the exercise of reason and the study of nature? How do the insights of modern physics into the interlacing of order and disorder relate to the Christian doctrine of Creation? What is the relationship between mind and matter? Polkinghorne states that the "remarkable insights that science affords us into the intelligible workings of the world cry out for an explanation more profound than that which it itself can provide. Religion, if it is to take seriously its claim that the world is the creation of God, must be humble enough to learn from science what that world is actually like. The dialogue between them can only be mutually enriching."

The book covers five different cases involving different welding processes, component geometry, size of the element and dissimilar material properties. A detailed step by step calculation is presented followed by APDL program listing and output charts from ANSYS. Features: Provides useful background information on welding processes, thermal cycles and finite element method Presents calculation procedure for determining the arc heat input in a cross sectional analysis and an in-plane analysis Enables visualization of the arc heat in a FEM model for various positions of the arc Discusses analysis of advanced cases like dissimilar welding and circumferential welding Includes step by step procedure for running the analysis with typical input APDL program listing and output charts from ANSYS.
